

POLITICAL.—Simpson county has been instructed for Dr. Blackburn for Governor; Capt. Cantrell for Lieutenant Governor; D. Howard Smith for Auditor; our own Watt Hardin for Attorney General; Col. Sheldon for Register, and Col. Edgar for Superintendent of Public Instruction. Trimble county gave Blackburn her first and Jones her second choice, and instructed for Cantrell, Hardin first and Jones second; Hewitt for Auditor, Dr. Henderson for Superintendent of Instruction; Vories first and Sheldon second choice for Register; delegates to vote as a unit on all questions. Crittenden county instructed as follows: Underwood for Governor; Hughes, Lieut. Governor; Hardin, Attorney General; Hewitt, Auditor; Tate, Treasurer; Henderson, Sup't. Instruction; Boyd, Register; Nichols goes for Dr. Blackburn for Governor; Cleveland, Lieut. Governor; Hardin, Attorney General; Boyd, Auditor; Pro. T. C. H. Vance, Sup't. Instruction, and Williams for Register.

CAPT. THOMAS BLAIR was arrested on his arrival at New York, and taken to Governor's Island, where he is held as a military prisoner, to await further orders from Washington. No one except his wife and General Hancock, are allowed to see him. In addition to the charges of bigamy and forgery, another charge has been added, that of misappropriating \$1,500 of Commissary funds which he alleges were stolen from him. Judge Orsley who is now in New York, writes us that he has made every arrangement to have the charges fully prosecuted, and at present thinks it best for him not to make a statement of the points he has learned since going East.

Four murderers expiated their crimes on the gallows last Friday. One of them Benjamin Hunter, at Camden, New Jersey, was dying while the room was being adjusted about his neck, he having attempted suicide by opening an artery. The bungling Sheriff made the rope too long, but he pulled down on him and managed to get his wind shut off. Two men, and the last of the Mollie Maguires, were hung in Pennsylvania, Tuesday. A telegraphic reprieve from the Governor arrived about one minute after the drop was sprung.

With its issue of this week the Washington county Herald ceases to exist, its editor, Mr. W. O. Cunningham having decided to go to Richmond, Ky., and with Judge E. W. Turner, to establish the Richmond Herald, the publication of which will commence on the 7th of next month. We regret to lose the Herald, having regarded it as one of our best exchanges, but hope to be fully repaid for its loss in the new paper at Richmond.

The Grangers' Mutual Benefit Society held its annual meeting at Georgetown last week, and elected the following officers: W. B. Galloway, President; J. H. Wolf, Vice President; Dr. S. P. Gano, Medical Director; W. Z. Thompson, Secretary and Treasurer; W. H. Warren and J. H. Moore, General Agents. The Society is represented as being in a flourishing condition, its membership always increasing and the death rate light.

REV. GREEN CLAY SMITH, the man who got a few votes as candidate for the Presidency of the United States, has sued the city of Frankfort, for \$15,000 because he was not allowed to vote at a recent election on account of failure to pay his town taxes. A delinquent tax payer as President of this grand country, would be a lovely sight to behold.

MATTHEWS in Breathitt are beginning to assume a cheerful air. Fourteen men have been indicted for the murder of Judge Burnett, and four for the murder of Freeman. Most of these worthies are in jail, and the C.J.'s correspondent says that the Prosecuting Attorney is of opinion that at least fifteen of the number will be convicted.

SENATOR R. J. WHITE, a wealthy farmer and stock raiser of Madison, has assigned for the benefit of his creditors. His liabilities are stated at \$75,000 and his assets at \$60,000. Among the latter are 874 acres of splendid land near Richmond, Ky. We regret exceedingly to hear of Col. White's misfortunes.

EX-CONFEDERATE GENERAL LONGSTREET, who immediately after the close of the war rushed into the ranks of the Radicals and made himself most obnoxious to the people of his section, has gotten his reward in the shape of an appointment as a postmaster in a little town in Georgia.

DAVID N. WILLIAMS, of Rockcastle, is a candidate for Register of the Land Office. He is a poor man and not able to make a general canvass for the office, but as to ability and deserts he has no peer in the State.

The bonded debt of Marion county is \$244,000 and that of Clark \$110,000, while Lincoln is comparatively out of debt, her total indebtedness being less than \$18,000.

JULY 20.—A telegram just received from Dr. Norman Lockyer, the celebrated English astronomer, informs us that he "has obtained evidence that the bright lines in the solar chromosphere are lines chiefly due to the not yet isolated basis of the fourteen so-called elements, the solar phenomena in their totality being due to dissociation at the photometric level and association at higher levels. Thus vertical currents in the solar atmosphere, ascending and descending cause intense absorption in the sun-spots. Their association with the faculae and the apparently continuous spectrum of the corona, and its structure thus finds easy solution." We had suspected as much ourselves, and recent experiments convince us that Dr. Lockyer is "blind right" in saying what he does above.

HENRY T. STANTON of the Yeoman, and E. H. Taylor, Jr., the defeated candidate for Mayor, had a little difficulty a few days ago, over matters growing out of the canvass, in which Major Stanton came out decidedly best. This little episode, however, threw him out of his regular groove and may account for his crediting a number of our articles of last week to the *Jessamine Journal*. Under the circumstances, we can excuse the error.

T. D. LOVETT, late Chief Engineer of the Cincinnati Southern R. R., has turned up as a Contractor on a narrow gauge Railroad from Jerusalem to Joppa, in the Holy Land. Mr. Lovett was mightily badly wanted a few days ago to tell the Investigating Committee what had become of a considerable amount of funds that couldn't be accounted for by the Board of Trustees of the C. S. R. R.

All over the State suit is being entered against persons too poor to subscribe for a paper, but rich enough to put their X's to the swindling contracts made by the Indianapolis Medical Works. We took a look at those "works" the other day, and there isn't room in them for a dose of cotton oil to work.—[Logan in C.J.]

Two more Congressmen have died since our last issue, making eight deaths in the House of Representatives within a year. Julian Hart-ridge, a talented young member from Georgia, of pneumonia, and Schleider from Texas, of Erysipelas, are the late victims.

The Legislature of Virginia, has adopted a resolution providing for a conference with the State ex-liters. It is expressly understood, however, that the present rate of taxation shall not be increased in furtherance of any settlement that may be decided upon.

A DISPATCH from Philadelphia states that a railroad train fell into the river Orda, Saturday, and that a Russian General, several other officers and 200 men were drowned. The accident was caused by the breaking down of the bridge.

EMMETT LOGAN's little item in the *Courier-Journal* about chilled plows, &c., shows the remarkable versatility of that genius. He is just as familiar with such things as he is with the short comings of the rural roosters.

The Somerset Reporter estimates the total loss by the late flood and break up on the Cumberland River at \$30,000. A large portion of the new dams lately constructed by the government have been washed out.

Mrs. ANDERSON, of New York, has just completed the remarkable task of walking twenty-seven hundred quarter miles in as many quarters hours. Her legs are certainly the best part of her anatomy.

A STATEMENT of the condition of the late German Bank in Cincinnati, Adair & Co., Proprietors, shows its liabilities at \$700,000 and its assets at \$400,000. No wonder the creditors had the firm arrested.

The concealed weapon law in South Carolina is the kind to have. The fine is not less than \$200 nor more than \$1,000 and imprisonment for not less than six nor more than twelve months.

It is reported that Judge Hunt, on account of ill health, will be retired from the Supreme Bench, at a salary of \$10,000, and that Hon. Stanley Matthews will be appointed to fill his place.

ONE million dollars of Cincinnati Southern Bonds were awarded by the Trustees yesterday to a Boston firm at 102.784-1000 per cent, and accrued interest.

A FIRE in Cincinnati last Friday destroyed the Commercial Bank and several other buildings, causing a loss of \$300,000; nearly covered by insurance.

EX-SHERIFF Wm. P. Wallace, of Cincinnati, has defaulted to the amt of \$223,000 and skipped out, leaving his bondsmen with the tag to build.

HON. JAS. B. BECK's exhortation of John Sherman in the Senate, this week, is the best reading we have had for many a day.

A big ice gorge and flood in the Ohio River caused great destruction to steamboats and barges.

The chances for the election of Jno. A. Logan to the U. S. Senate from Illinois, is flattering.

PROV. HILL has been elected United States Senator by the Colorado Legislature.

MEDICAL ASSOCIATION.—The Central Kentucky Medical Association met in Danville, Wednesday, the 14th inst., with Dr. McMurtry, in the Chair. The opening address was read by Dr. H. P. Plummer, of Harrodsburg, on "Fever," after which there was an extended discussion in reference to the etiology and pathology of the disease.

Dr. Bailey, of Stanford, read a report of a case of "Gunshot injury of the Spinal Column." Dr. Johnston, of Danville, exhibited Lester's "Atomizer," for Antiseptic dressing. Dr. Carpenter, of Crab Orchard, exhibited Loomis' work on "Fever," also a "Cere pith test."

A memorial of the late Dr. James M. Reid, of Garrard county, was read by Dr. Erwin, Chairman of the Committee. It being the time for the election of officers, the following members were unanimously elected to serve the ensuing year: Dr. A. B. McKee, of Danville, President; Dr. W. A. Brown, of Parksville, V. President; Dr. Steele Bailey, of Stanford, Recording Secretary; Dr. A. D. Price, of Harrodsburg, Corresponding Secretary; Dr. E. A. Moore, of Hustonville, Treasurer.

The thanks of the Association were voted Dr. Johnston, for the handsome entertainment given at Gileah's.

The meeting was a harmonious one, showing how pleasant it is to be brethren to all together in unity.

The Association stands adjourned to meet in Lancaster, the 2nd Monday in April, 1879, at which time the debate will be opened by Dr. Johnston, on "Diphtheria."

ROCKCASTLE COUNTY.—**Mr. Vernon.**

CHILDS.—Dr. W. P. McKee has been confined to his room this week with a severe cold, accompanied by chills.

VOWLES & LESTON.—William Linton has purchased of J. E. Vowles a half interest in his fancy grocery and saloon.

THE SAM BURNETT CHASE.—Adams & Brown have a cigar that is named for us. It's a good cigar with nothing goes about it.

"SNOW-BALLING"—Has been the great pastime for some days. A very sore nose forcibly reminds us that the so-called pleasures of "snow-balling" are all "vanity and vexation of spirit."

SCARLET FEVER.—That dread infantile malady, Scarlet Fever, has made its appearance in our town. Little Lou McKee is quite ill with it. Great precautions should be taken to prevent a spread of the disease.

STOCK MATTERS.—Two gentlemen from Lincoln county, were here Tuesday, trying to purchase mules. The figures offered were too small for our dealers, who will, probably, ship their stock to the Southern market.

A SMALL MATTER IN COMPANION.—Remuneration did not create one-half the excitement in financial circles here as did the recent decision of Judge Jackson that witness fees in criminal cases are not payable out of the public treasury.

FOX CHASE.—Bill Taylor, the Nimrod of Rockcastle, chased a large red fox into a cliff Monday. That night when Bernard came forth for his usual nocturnal raid, he was caught in a trap, which held him fast. Bill says he has been chasing that fox for five years.

PERSONAL.—Mr. O. H. Waddle, a prominent young member of the Somerset Bar, is here this week on professional business. Mr. Frank Vowles left for his home at New Hope, on Monday. He was accompanied by Master John Vowles, of this place, who goes to attend school at Gethsemane.

COL. WHITE.—Our citizens much regret the financial misfortune which has overtaken their efficient representative in the State Senate, Col. R. J. White. It is hoped in view of his well-known business capacity with confidence that he will be able to come to the front again in a short time.

ENGINE OFF THE TRACK.—As freight train No. 18, was nearing Mt. Guthrie last Saturday evening, the engine suddenly jumped from the track. No damage was done, but it was 5 o'clock Sunday morning before they could get the "wheels to go round" on the rails again. The passenger train, which was behind the freight, went back to Crab Orchard and hid over for the night, so that we enjoyed the luxury of a Sunday morning's mail.

COURT MATTERS.—The cases of the Commonwealth vs. John and Dillard Brumback, for grand larceny, have been continued till February 27th, the defendants in the meantime being released on bail. Killing or Sallie Roberts also remains, for Saturday next, last inst. On the docket for the present term of the Court of Appeals, there is only one case from Rockcastle, that of Wesley vs. Wesley, which is set for hearing, March 22nd.

DEATH.—At his residence in this county, on the 12th inst., at 6 o'clock, A. M. Bennett Hunt, a useful and highly respected citizen, departed this life in the 80th year of his age. In spite of his advancing years, he retained his vitality in a marked degree until last Spring, since which time he has been rapidly going down the "valley of the dark river," so that his demise was not unexpected. He was a member of the Christian Church, and died in the triumph of faith, surrounded by his children and grandchildren, who did all that loving hearts could suggest to render his last moments comfortable. In the note below James Bennett Hunt was a famous stock trader in this county, making annual, and some times semi-annual trips to the South, with mules, horses, hogs, &c. He was always an honest citizen, upright, industrious, and liberal in his dealings with his fellow-men. His wife and six children survive him, to whom we tender our most profound sympathy in their bereavement.

MADISON COUNTY.—**Richmond.**

TO WHAT HAVE WE COME AT LAST.—The Garrett House bar-room has been converted into a bar-scholarship.

HUNT BY A FALL.—Mr. Henry C. Smith, one of our most enterprising Main street grocers, fell last week and so seriously injured himself that he has been confined to his room.

COMMON PLEAS COURT.—Opened here last Monday, His Honor, Judge Burkner, donning the ermine, and presiding in his usual dignified style. He is moving the court with his usual vim, having 201 cases on the docket; but no measures of interest have been introduced up to the present time of writing.

WAYNE COUNTY.—**Mountain.**

BETTER.—We are glad to be able to announce that the condition of Mrs. Jeff Salter is more hopeful, though she is yet quite ill.

WILD GESE.—In large numbers are frequenting our fields in this locality, and are destroying quantities of grain that has been left out in the shock.

RELIGIOUS.—The Presbyterian church held communion services last Sunday. Dr. J. W. Pratt preached last Sunday in Cincinnati in Nelson Smith's church. Elder S. H. King, of your county, filled the pulpit at Mt. Zion, this county, last Sunday.

JUDGE TIPPON, JR.—Governor McGovern appointed French Tipton, of the Register Police Judge to fill the vacancy caused by the death of Judge Williams. The Judge could not have made a better appointment than "Tip," for he is a high-toned, clever fellow, and will make a good Judge.

INTERRUPTED BY THE SNOW.—For several days last week business of all kinds was about suspended. The Louisville train got stuck in the snow three miles from town and the passengers had to be hauled back to town in a wagon. The stage to Lexington was unable to make the trip, and the mail was carried over in a buggy.

A GROOM AT SEVENTY.—Mr. Malcom Miller, a farmer of this county, was married last Friday, near Kingston, to Mrs. Ann E. Heatherly. The groom is on the verge of three score and ten, while his bride is slowly traveling down life's decline. May the remainder of their lives be one calm, undisturbed by a single squall, is the wish of many friends.

PERSONAL.—General T. C. Garrett and Judge Dickerson, of Clay county, are in attendance at our court this week. Miss Eliza Smith, an attractive and beautiful young lady from Frankfort, is visiting her cousin, Miss Mary Smith, of this place. Thomas Hughes, the popular clerk of Friends & White, is about to be married to Miss Lizzie D. Arburke, who has been seriously ill, is getting well. We regret to lose Wallace M. Shelby, of Lexington, and Neal Shilman, of Winchester, as students at the College.

ASSIGNMENTS.—On last Friday Col. E. J. White, one of our largest farmers and State Senator of this District, made an assignment to John A. Duncan, of this county. His liabilities are estimated at about \$75,000. His assets embrace 874 acres of fine land, located 4 miles from Richmond, on the Big Hill turnpike, and also a large amount of stock, notes, &c. And on Tuesday of this week Mr. Wm. O. Presitt, a merchant of Kirksville, made an assignment, with liabilities amounting to \$25,000.

PULASKI COUNTY.—**Somerset.**

CLOSED.—The free school taught at Masonic College closed this week.

A RUNAWAY COUPLE.—Passed through town last Saturday evening, pursued by an angry parent; we have not learned how the pursuit terminated.

STOCK DEALERS.—Messrs. Beattie and Newell, of Bourbon, Pulaski county, are purchasing and shipping cattle from this county to Cincinnati.

PERSONAL.—Miss Addie Gossett has been quite ill. Mr. Willie Clord, of Middleburg, was in town last week. Miss Annella Schiffmaker, returned to her home in Cincinnati, last Monday, after a protracted visit to friends. Mr. M. N. Dunn is at home again.

A TENDER HEARTED DAME.—A ball given at the residence of Mr. John Haley, last Friday night, was attended by a number of young ladies and gentlemen, who danced to the music of the violin until the "see saw" hours. With one exception, the evening passed off pleasantly. This was the case of a young Miss who saddened the hearts of all by taking a heavy cry at having the raffle torn off her train by an awkward partner.

A PETTY THIEF.—An equestrian stopped at a farm-house near Camp Ground last week, and giving the name of a man well known here, desired to hire a jumper for a few hours. The boy to whom he applied, had never seen the man whose name was given, hence easily deceived, he furnished "gear," and hired the sleigh to the applicant. The day passed away but the sleigh was not returned, and now, after waiting patiently for a week, the boy finds that he has been "sold" and is five dollars poorer by the transaction.

A WOLF.—Many persons prophesied that we should have an unusually severe winter, regarding as an omen the fact, that various animals were seen in the edge of their forest haunts, some even entering the streets of towns and villages. Our people received awful warning; for some time before the last severe cold spell, a wolf of extraordinary size appeared in the vicinity of Somerset, causing great destruction among the flocks and herds; at times it was seen even on the streets of the town, accompanied by three smaller companions. This exceeding rare and ferocious animal was shot by a hunter named Sumner, in my clothing of the camp-meeting grounds that make the woodland groves ring with a merry melody from July to October.

The large reservoir near the mountain range is a great source of comfort to the city. The water is remarkably fine, clean and pure.

Frederick was the scene of Barbara Fritchie's career, celebrated in Whittier's patriotic poem. A late freshet washed away the old house, but the photographer's art preserves it to rival with the Union Flag waving from its upper window. Did space permit, an interesting history might be written of the many notable landmarks of the city connecting the old with the new, the past with the present.

The Deaf and Dumb Institute referred to ranks among the most admirable in the country. Not only the sign language is skillfully taught, but the new system of lip-imitation, by which the Deaf Mute learns to speak. On Wednesday evening I saw my pleasure in a sermon delivered to the pupils by the Rev. Mr. Gallender. The discourse was in the sign language, and was interpreted for the people at large by a second minister. After this interesting scene of intelligent instruction, a musical discourse was delivered in English, and interpreted for the Mutes in the sign language.

In this connection the recent and tidings of the death of Mr. John Jacobs, of Danville, recall to memory with a pang of regret. He was numbered among Kentucky's most chivalrous sons, filling in every relation of life a position which must inevitably render his loss irreparable in a remarkable degree. No one came within the radius of his single-hearted loyalty but has reason to lament the untimely loss of one who so perfectly fulfilled the true grace of friendship, love and truth. Peace to the noble dead! May his awakening be among the smiles of greeting from the bright particular stars of whom he was on earth a central system of light.

A TEA PARTY.—In honor of Miss Lala's nineteenth birthday day will be given at the residence of her father, Michael Phillips, on the evening of the 16th inst.

SLEET.—The ground has been enveloped in a sheet of solid ice since the 10th inst., rendering it dangerous to travel, therefore, a cessation of communication between the town and country, hence, a scarcity of news items this week.

A DEER HUNTER.—Major John Wright, of Fentress county, Tennessee, reports that a man named Stephens, came on the track of a bear in the snow, while hunting on the waters of Laurel Fork, followed it to its den and succeeded in killing five of the "beasts" before he left.

A HORSE THAT ATE HIS HEAD OFF.—A Tennessee showman, several months ago, left here, as he said, to go to Cincinnati, leaving his horse, wagon, single harness, &c., with Mr. Jeff Goodman, to keep until his return. The horse was disposed of some time ago, and yesterday the remainder of the effects was sold at auction to satisfy the balance on board bill of the horse. That horse may be said to have eaten more than his head off.

SCHIZO.—Harrieth Cooper, son of Jacob Cooper, Sen., of this county, about 23 years of age, died suddenly at his residence eight miles East of here on Saturday night last. Coroner Bates left here Sunday morning for the purpose of holding an inquest over his remains. We learn that the facts official were, that he came to his death from an overdose of strychnine, administered by himself. Young Cooper was a sober, industrious, moral and quite popular man, getting on prosperously, as every body thought, hence, his rash act is a matter of much surprise to his acquaintances.

FROM SAPHO.—**FREDERICK, MARYLAND.**—Jan. 8th, 1879.

THANK YOU MA'N.—With a late issue of the INTERIOR JOURNAL before me I can echo the sentiments expressed by its Hustonville correspondent and by all who have their hours among strangers familiarized by its interesting columns. It is superfluous to go over the oft-trodden ground of the charms of this journal; to me one has only to be absent from home to render full justice to its pleasure-giving merits. Its editor, too, is the very prince of modulators, rarely committing his letters in the promiscuous manner peculiar to Types in general.

FREDERICK.—Is a city of ten thousand inhabitants, and dates its corner-stone as far back as 1748. Among the earlier buildings is a revolutionary fort still called the barracks. A few years ago the greater portion of this struggling building was torn down and on its site a handsome Institute for Deaf Mutes arose; but there still remains enough of the fort to tell the story of the Nation's early struggles. The city is compactly built and is noted for commercial thrift and business private fortunes. Situated in the fertile valley between the Catoctin mountains and the Monocacy river, one needs only to ascend the mountain ridge to behold a charming picture of the distant horizon in one direction, and instead of our rolling Kentucky landscape, we have here only valleys and mountain clearly defined, each within its legitimate limits. There are numerous churches in the city, and the street and narrow paths is unusually well-trodden. The Lutheran Sunday-School alone, numbers nearly a thousand pupils and one hundred teachers. The German Reformed is also an extensive congregation. The Roman Catholic Church owns handsome property in one portion of the city. A fine Church building, Convent and Novitiate, when that section with architectural beauty of a high order. The Episcopal Church also deserves special mention as a splendid specimen of pure Gothic architecture rarely seen outside of a great metropolis. Other denominations have commodious houses of worship. Many of these Churches are profusely adorned with Christmas evergreen and Scriptural mottoes. The various Lodges of the Mystic brotherhoods occupy conspicuous portions of the principal streets. The Fire Department is quite a feature in the municipal directory, the latest models of the steam engine being in use. The Press is ably represented weekly and semi-weekly. The Court-house is among the elegant brick buildings, and the present session of Circuit Court has attracted the attention of the Court Square citizens to wander far from the hall of justice.

In the suburbs, the Atlas House ranks foremost among distinguished places. Here the pauper, the inmate, and the idiot, are treated with humane attention.

The pleasure grounds and parks are great places of resort in Summer, in my clothing of the camp-meeting grounds that make the woodland groves ring with a merry melody from July to October.

The large reservoir near the mountain range is a great source of comfort to the city. The water is remarkably fine, clean and pure.

Frederick was the scene of Barbara Fritchie's career, celebrated in Whittier's patriotic poem. A late freshet washed away the old house, but the photographer's art preserves it to rival with the Union Flag waving from its upper window. Did space permit, an interesting history might be written of the many notable landmarks of the city connecting the old with the new, the past with the present.

The Deaf and Dumb Institute referred to ranks among the most admirable in the country. Not only the sign language is skillfully taught, but the new system of lip-imitation, by which the Deaf Mute learns to speak. On Wednesday evening I saw my pleasure in a sermon delivered to the pupils by the Rev. Mr. Gallender. The discourse was in the sign language, and was interpreted for the people at large by a second minister. After this interesting scene of intelligent instruction, a musical discourse was delivered in English, and interpreted for the Mutes in the sign language.

In this connection the recent and tidings of the death of Mr. John Jacobs, of Danville, recall to memory with a pang of regret.
